Please note:

All harnesses are made in England.

They are made to original specifications subject only to availability of original components.

Harnesses in stock will be either Braid or PVC tape whatever was original.

However where regular demand indicates that the other wrap is also in demand, that version will also be kept in stock.

Any harness listed with only PVC tape outer wrap may be ordered with a cloth braid instead at an additional 25% charge.

These will be special orders so please allow up to 6 additional weeks delivery.
